## "Proper" Buckling up of Child

Properly buckling up child with 5-point harness in car seat or seat belt

Car crashes are the leading cause of injury for children (birth to 16 years). Most parents feel their child is buckled properly in a car seat, but 3 out of 4 children are not. These children are at risk of injury and for being ticketed under the law. Talk with a Certified CPS Technician at 323-491-6197.
