

Child Safety & Your New Home

Know the injury risks & learn how to prevent them to keep your family safe in your new home

Most childhood injuries occur in the home. When you move into a new home, the new environment increases injury risk.

We offer a Home Safety Audit service for parents in their new home. We come to your home to help you become aware of these injury risks and provide you with preventive recommendations and resources.

What does the Home Safety Audit include?

A safety expert will help you in the following areas:

- **Home safety check for your home**
 - Room by room checklist on injury risks
 - Identify solutions for prevention
- **Preparing your new home for children**
 - Room by room check
 - Furniture/TV/crib safety
 - Pool safety
 - Windows/balcony/stair safety
 - Choking/suffocation/poison prevention
 - Burn/scald prevention
- **Recalls & information/updates**
- **Resources**
