

# Shopping for a Car Seat?

Talk with a Certified Technician first!

The following factors increase the chance that a car seat will not be able to be installed in the vehicle properly. In addition, lifestyles and activities of the parents, such as the amount of driving for example, also affect how compatible certain car seats are for you.

**Have more than one child/car seat?**

**Have a tall driver and/or tall front passenger?**

**Different size and design of car seats and vehicles?**

Thirty-two percent of parents buy a car seat or receive one as a gift, that will not fit in their car properly, risking the need to return/exchange it or risk it not being installed correctly.
